

New Flood Information Hotline Established for Public

Thank you so very much for the time and energy many of you have spent answering the public's calls and questions about the roadway closures and ongoing state of repair of our state highway system.

You have helped immeasurably and now we want to help you focus on the many other priorities you have on your plate as we tackle this crisis. The Office of Communications has established a single hotline for the public to call with questions. When you receive a call, please do reference them to us and we will respond accordingly.

The new hotline is: [720-263-1589](tel:720-263-1589).

The phones will be monitored during business hours from 8 a.m. to 5 p.m. For toll free calls, please direct them to [800-999-4997](tel:800-999-4997).

Thank you again for your significant support for the first few days of this crisis. We could not have managed without you and hope that this hotline will help you as we all move forward together.

Amy Ford
Director of Communications
