## COLORADO LTAP TECHNICAL ASSISTANCE

3 Optional Workshops

# FREE Roadway Management

### PROGRAM TOPICS

- Making road, and bridge *funding* decisions as an elected or non-elected official
- Making *agency-wide planning and funding* decisions as an elected or non-elected official
- Presenting budgets to political bodies, such as county commissions or town councils
- Managing a road or street network
- Advocating expenditures on a road or street network
- Prioritizing construction and rehabilitation projects
- Seeking funding for major projects
- Directing and overseeing the day-to-day activities of road or street crews
- Prioritizing road or street maintenance activities
- Preparing road or street maintenance budgets
- Purchasing materials, supplies, and equipment
- Setting up, collecting, and/or maintaining roadway-related inventory systems
- *Call or visit our website for a more detailed course outline.*

### CLASS LOCATION

These workshops are being offered through the *Transportation Learning Network (TLN)*, an interactive distance learning program. Colorado's TLN site, where all 3 workshops will be offered, is located at:

**Colorado State University  
Titan / TLN Studio**

Room B203, Engineering Building  
Ft Collins, CO

*Call Colorado LTAP for maps & parking info.*

**NOVEMBER 2, 2009 8:00am - 11:00pm**

#### **Session 1: Roadway Management Basics**

This session is for those who want to develop a basic understanding of principles and practices of roadway management. For those who wish to understand both potential benefits of roadway management and the basic processes necessary for a roadway management system to be successful. This session is most appropriate for individuals with little or no knowledge about what a roadway inventory or management system can do for them.

**NOVEMBER 2, 2009 12:00pm - 3:00pm**

#### **Session 2: Improving Your Road Management Program**

This session is for those who have some experience with roadway management and inventories or who have taken Session 1 and who wish to learn how to get more out of their current inventory, cost tracking, and management practices. Targeted towards those who wish to learn how to prioritize and better focus their cost tracking, inventorying, and roadway management practices to provide better and more useful information at both the project and the network levels. This one is most appropriate for individuals having some basic knowledge of roadway asset inventories and basic use of the data for managing their roadways, as well as for those who wish to learn how to get more out of their existing systems.

**NOVEMBER 3, 2009 8:00am - 11:00pm**

#### **Session 3: Taking Roadway Mgmt to the Next Level**

This session is for those who have an established roadway/asset management system or who have attended Session 2 and who want to learn more advanced management practices, such as GIS and optimization procedures. Will cover how to use a road management system to make more informed maintenance and rehabilitation decisions based on historical and other data; and offer techniques for upgrading existing management systems and applying more advanced analytical techniques. This session is most appropriate for those with some roadway/asset management experience who wish to learn about additional roadway/asset management opportunities from both experts in the field and from their peers.

3 WORKSHOPS ON  
*Road Surface Management*

These workshops are being offered through the *Transportation Learning Network (TLN)* an interactive distance learning program. The sessions in this workshop have been designed to address the issues facing all local officials responsible for roadways in their communities. By breaking the workshops up into 3 sessions, the workshops can address the needs of all workers, managers, and engineers.

**REGISTRATION FEE**

Multiple instructors will be presenting, and detailed handouts & CDs provided.

**REGISTRATION FEE**

There is no registration fee for these FREE workshops, and lunch is not included. An invoice confirmation will be faxed/emailed upon registration. Due to the late notice, you CAN register on-site on the day of your chosen workshop.

**SPECIAL NOTES**

Roads Scholar credit is NOT offered for these half-day workshops. *Call or visit our website for a more detailed workshop agendas, or location maps.*
